

Loss of nuclear pro-IL-16 facilitates cell cycle progression in human cutaneous T cell lymphoma

Clara Curiel-Lewandrowski, ... , David M. Center, William W. Cruikshank

J Clin Invest. 2014;124(11):5085-5085. <https://doi.org/10.1172/JCI79199>.

Retraction

Original citation: *J Clin Invest.* 2011;121(12):4838–4849. doi:10.1172/JCI41769. Citation for this retraction: *J Clin Invest.* 2014;124(11):5085. doi:10.1172/JCI79199. The article “Loss of nuclear pro-IL-16 facilitates cell cycle progression in human cutaneous T cell lymphoma” is being retracted, with the agreement of the corresponding author. Several duplicated bands were recently identified in the immunoblot images in Figures 1 and 3, and the authors are unable to retrieve the original source files that were used to generate these data.
